- Paint** protection
- Window** tinting
- Graphic** design
- Architectural** vinyl
- Signs** & graphics
- Digital** print

Wrap Smith is a specialized PPF (Paint Protection Film) PPF can be used to fully or partly protect any surface from scratches, scratches can be removed with the help of the sun's heat or hot water during cleaning. The ultra clear & high gloss finish makes PPF invisible while maintaining a special anti-adhesion coating, designed to keep the car looking cleaner for longer. The conformability of PPF makes the application easier with a time saving of around 30%, while the durability offers a 7 year life against yellowing & cracking.
